

A man with a beard and safety glasses is wearing a yellow high-visibility vest over a white shirt. He is also wearing large yellow ear protection. He is looking towards the camera with a serious expression. His right hand is wearing a black work glove and is holding a blue material. The background is a blurred industrial setting.

About Us

Shijiazhuang Enhai Garments Co.,Ltd is an integrated manufacturer and trading company established in 2010, after 15 years of growth, the company becomes a comprehensive and competitive garments manufacturer&exporter.

The company is located in Shijiazhuang, the capital city of Hebei Province and has two production bases in Yuanshi county. Besides of these, we hold shares in three other garments factories, holding another garments factories for extra capacities. We are also holding shares in one weaving mill and one dyeing mill which can supply us with enough fabric stably.

All the garments are produced & sold by ourselves, and are exported to Europe and America. Our main product lines include: workwears, casual wear, Jeans wear, outdoor garments, Waterproof&breathable garments, anti-static garments, water&oil repellent garments, anti-bacterial garments, high-visible garments and flame retardant garments made from various fabrics. We are also doing the CMT business.

Shijiazhuang JIAYIDA garments factory is one of production based invested by the company who covers an area of 10,000 square meters with a built-up area of 7,000 square meters. The factory has two cutting plants including 5 cutting lines, six sewing plant, two packing room. There are all together 10 production lines and 350 workers in the whole factory.(pls see enclosed the introduction for our factory)

Our factory have the BSCI certification, manage the workers based on the principle of "always puts the workers' interest in the first place" according to SA8000 standards. All of our products comply with Oeko-Tex Standard 100. In business, we adhere to the principle that "Quality is paramount, and reputation is our highest ideal," guided by the management philosophy of "integrity, innovation, and development" to satisfy our customers and achieve recognition in the international market.

We sincerely hope we can keep the cooperation with all of our friends to build a brilliant future together.

How Do We Control The Quality Of Clothing

First, we check the quality of the fabric. The appearance of the fabrics should be bright and clean, and there should be no defects such as holes, spots, and stains on the surface.

Second, we will test the weight and thickness of the fabric. The weight and thickness of the clothes can meet the requirements of the product.

Third we detect the shrinkage of clothing. There are certain standards for the degree of shrinkage of the fabric. The size of the clothing should be consistent with the requirements.

Fourth we will test the color fastness of the bulk fabric, this is also very important. Must to meet the customer's requirements.

Fifth we will check all the trims, like buttons, zippers, buckles.

HIGH QUALITY

You get access to our network of manufacturers, which gives you the assurance of responsible, cost-effective and high quality products.

SUSTAINABLE

Design sustainable styles. Choose e.g. between Oeko-Tex, EU-Ecolabel or GOTS.

DIRECT DELIVERY

When your styles are designed, approved and produced, they will be delivered directly to you.

UNIQUE STYLES

'Your design' is for you who want to design unique styles in collaboration with our designers.

SEA OR AIR

Styles are shipped by sea. If faster delivery is desired, shipping by air is possible.

INFINITE STYLES

Design exactly the Corporate Wear that shows your identity.

COLOURS

Design styles in the colours that match your identity.

FAST TRACK

Want to design fast and easy? Choose between bestselling ENHA! styles, and customize by adding your logo.
